E. How would you rate the overall institute?	61.15% 85	21.58% 30	14.39% 20	1.44% 2	1.44% 2	139	1

Please share any concerns you may have regarding the Institute.

Personally, I prefer the Convention Center for parking and accessibility. However I realized that the Arlington is probably more cost effective. I think you did a great job on the Institute and my ratings above were about the facility, not the conference staff.

This building was very dated and the lobby had chunks of ceiling fall out and was not closed off. I did not feel like this facility was in sufficient condition to host a conference.

As a vendor...our days are too long, should only be there maybe 1 1/2 days with refreshments and doors prizes in the area...not very good traffic in area, needs better lighting for vendors.

Add lunch fee into registration

The rooms Cafe 1 & 2 were too small for the sessions. Also ceiling fell in the lobby scaring us. While the Arlington is beautiful and I understand the need for continual upkeep, having the ceiling fall made me very wary of the stability of the building.

More signage for directions and times for sessions

Room temperature

The elevators did not feel safe. It stopped suddenly and i almost fell to ground. Took the stairs the rest of the time

The hotel per diem was over the acceptable rate for my institution. The parking was inconvenient.

No concerns! It was all great!

Concerns: it was in a haunted hotel

Include lunch in price of conference

This hotel took money out my account that was not authorized

Great institute! I loved the sessions. The place is dated however.

The hotel was questionable

The valet lost our car keys and blamed us for them misplacing them. I found a roach in my room. The gym had 3 dead large roaches near the mats. The cleaners took my coworkers swim suit by mistake. She was not able to get it till they found it.

Last general session needed to be more energizing and dynamic.

The Institute was wonderful! Thanks for choosing the Arlington it was a great venue for the Conference.

Arlington is a terrible hotel. Rooms bad, elevators bad, stairs bad

The Phenomena workshop should have been conducted in a larger space than provided. Participants did not have enough workspace to engage in the activities provided or even get up to walk around.

There was confusion regarding when the vendors were told to pack up their stuff and what was shared in the program. This was difficult to navigate and impacted our ability to connect with teachers/admins. I also have quite a lot of food allergies and sadly there weren't a lot of food options on site that I could eat.

Great

Most of the training(s) I attended let out early. In my opinion, if the session states an hour it should last the entire hour.

The ceiling was falling literally and the staff did not seem to worry that people were still walking in the area. The area was not blocked off. Difficult to find rooms initially and rooms were not always large enough.

All of the speakers were great 🙌

Everything was good.

Great

One of the best institutes!

Hotel seemed a little unsafe due to construction

Great Conference Overall was Great!!

Please share your suggestions for the next training institute (2023). (Locations, session topics, keynote speakers, special event ideas, length of sessions.)

A place with better parking areas.

The non-profit exhibit table space was very limited regarding traffic flow, but better than having it in a separate area as in previous years at the Arlington.

Making the Curriculum Fun; Incorporating Nature/Science into the Classroom; Using the Playground as an Outdoor Classroom

I am good with wherever we go, just larger exhibit area with shorter days.

Lunch provided

Bring Coy Back!!!!

Another location, if possible.

Arlington was great.

It should be somewhere where they are not doing renovations

I loved the music and dance in the general session.

Session Topics - classroom management

A place where the rooms are updated

Little rock, AR. More educational sessions concerning drugs

Nutritional training added back to the sessions

Bigger rooms

May need to have institute every 2 years to get more participants

The STEAM group was my favorite!!! That group should have a larger space. The musician did great! I love how he connected his songs to learning goals. The guest speakers or sessions should be tied to our school readiness goals. Not just a marketing pitch.

Need ERSEA sessions!

Everything was great. Please continue to offer the Institute for 5 days. This allows those who can only get away a day or two to still plan to attend some.

the evening session should have been earlier in the week

The vendor hall was pretty off to the side and some vendors had more visibility than others.

Keep up the good work

A hotel with no construction would be my preference.

As family development is on the surge, more topics in regards to goal setting from a family perspective and how to accomplish those goals in a way that will influence a child later. An example would be how to budget? Ways to lower bills etc. By teaching the parent outside of family engagement you are building skills that the parent will demonstrate and therefore teach the child responsible habits early. There was significant information for teaching staff but not very much geared for family development workers themselves.

Different hotel

Convention Center

The dinner banquet was nice, I hope we have more like it.

A different location, instead of the Arlington.

Great

Fayetteville!

Include a session in the area of food allergies, medication, etc

Better Hotel bedrooms

Everything was great.

Using two to three words, how would you describe how much you enjoyed the institute?
